Bentley University and the Milton Public Schools Anti-Bullying Collaborative

The Milton Public Schools in cooperation with Bentley University is pleased to announce two anti-bullying programs. Designed by Bentley Students, the *One Goal, One Community: Moving Beyond Bullying and Empowering for Life* initiative is focused on educating community members and soliciting their commitment to help change behaviors and end the culture of bullying.

As part of the effort, Bentley students will facilitate programs for parents of elementary, middle and high school students, at 7:00pm, Tuesday, November 9, 2010. The program will open in the Milton High School Charles Winchester Auditorium before moving to smaller interactive breakout rooms. The Bentley students have researched the plethora of issues associated with bullying over the past two months. They will share their knowledge and personal experiences with the parents. Each session will include bullying dynamics, prevention strategies, tips for parents, the cyber world and social networking.

Bentley University students will partner with Milton student leaders to address assemblies/rallies at each school on Wednesday, November 10, 2010. These rallies are designed to be upbeat and positive, delivering the message that students have the power to change the culture and end bullying. Students will be invited to sign a pledge banner and wear a wrist band declaring their support in opposing bullying. The signed banners will be displayed in each school as a daily reminder of the students' collective effort to oppose bullying of all forms.

8:00-8:40 MHS Field House

9:15-9:45 Collicott

9:15-9:45 Cunningham
