Days: Monday - Thursday  
Times: 8:00am - 12:00pm  
Location: Milton High School  
\*no MSE on 7/3 or 7/4

### Tuition

1 Course = \$175	3 Courses = \$525
2 Courses = \$350	4 Courses = \$600

Family Max = \$1,200      Pre-K = \$650

**Non-Resident Tuition:** \$300 per course hour per student

**Make-Up Courses for High School Credit** \$300 per 2-hour course

**Non-Resident for High School Credit:** \$525

## HOW TO USE THIS BOOKLET

1. Read all important information in the beginning of this booklet and contact [mse@miltonps.org](mailto:mse@miltonps.org) with any questions.
2. Look at the AT A GLANCE section, under the grade your child will enter in Fall 2017 to view course offerings for each hour.
3. Read the descriptions of the courses listed in the booklet to make decisions about courses your child(ren) might be interested in.
4. Register online using the FamilyID website beginning on **April 26, 2017**. Keep in mind that this MSE Brochure is sent out early just for planning purposes for families and a separate communication will be sent about how to register for courses on the website.

## REGISTRATION

All registration will take place online. There will be no mail in registration.

Register starting April 26, 2017 at [www.miltonps.org](http://www.miltonps.org) under Departments>Summer Enrichment. Or, simply type <https://www.familyid.com/milton-summer-enrichment> into your web address bar and that will take you right there beginning on April 26!

When registering, make sure to fill all required fields. You will also be prompted to enter the total dollar amount for the cost of your courses. ***Finally, please write down your course schedule and print out a receipt. The receipt should be considered confirmation of registration, unless you are contacted directly.***

Courses are filled on a first come, first serve basis. As courses fill, they will be removed from the drop down menus and will no longer be available to register, even though they are still listed in this brochure. Registration issues or questions should be directed to MSE Directors Bernadette Butler and Cat DesRoche ([mse@miltonps.org](mailto:mse@miltonps.org)).

For those needing assistance registering, we will hold drop in registration hours on May 3, May 10, and May 17 from 3:30-5:00 in both the Tucker School Main Office and the Cunningham School Main Office.

**New this year: All families will be required to physically pick up their child(ren)s schedule prior to the start of MSE from the MSE Directors. Directors will communicate pick up times once registration begins.**

## DROP OFF/ PICK UP

In the interest of safety and having a smooth and swift process, it is crucial that all parents understand and follow these directions when dropping off and picking up at this location:

**Drop off students** at the front of MSE entrance. The entrance is located at the bottom of Gile Road in the lower parking lot. Please have your child ready to exit your vehicle from the right side. Our “red shirt” staff will be ready to receive students and escort them inside to their first period teacher.

If you feel it necessary to bring your child into the building yourself, for safety sake, you **MUST** park in the lower parking lot against the guide rails and must walk down towards the end door and use the walkway. Do not try to walk through the parking lot.

**Pick up** will be divided alphabetically and is different from previous years and is subject to change:

Last names beginning A - L should be picked up at the main entrance of MSE (in lower parking lot off of Gile Road) and you **MUST** enter and exit through the Blue Hill Parkway driveway.

Last names beginning M – Z should be picked up at the main entrance of Milton High School, on Gile Road. You **MUST** enter and exit through the Canton Avenue driveway.

These changes are in an effort to create a safe and efficient dismissal procedure. All families will be provided a map outlining the new dismissal plan prior to the start of MSE. In both pick up locations, please stay in your car; your child will be escorted to you.

## PRE - K PROGRAM

Pre-K students attend all four hours each day. Children who participate must be four years old by May 1, 2017 (no exceptions) and **NOT** entering Kindergarten in September. MSE Pre-K students must be fully toilet trained. There are 3 Pre-K teachers that stay with the students for the entire length of the program. Pre-K students must be registered for all 4 hours. Due to space restrictions, the number of spaces in the Pre-K class is very limited; please register early. Cost of Pre-K Program is \$650.00.

## IMPORTANT INFORMATION

- **Minimum Enrollment:** Classes with fewer than ten students may be cancelled at the director's discretion.
- **Transportation:** Milton Summer Enrichment does not provide transportation. Parents/guardians are responsible for picking up their children promptly at the end of their class. A late pick up fee of \$5.00 per five minutes late will be charged.
- **Groupings:** Students are grouped according to the grade entering in Fall of 2017.
- **Refunds:** Refunds will be granted only if a class is cancelled.
- **Attendance Policy:** MSE does not provide supervision for students not assigned to class. Please schedule your children carefully so there are no free hours between classes. Students should let teachers know in advance if an absence is expected. MSE does NOT contact parents when a student is absent.
- **High School Courses:** Students who take a class for credit must adhere to the MPS attendance rules, not missing more than two classes.
- **Behavioral Expectations:** MSE expects students to conduct themselves as they would during the school year. The Director will act as Principal of the MSE and follow the Student Handbook guidelines when appropriate. Refunds will not be given for students who are dismissed from the MSE Program for disciplinary infractions.

## 2017 Course Offerings At a Glance

The At a Glance document is for planning purposes only and course timing is subject to change slightly prior to registration.

## **2017 COURSE OFFERINGS**

### **Animals Around the World**

Come and explore animals from around the world. Each week we will travel around a new continent searching for some of the animals that inhabit that land. Discover where they live on the continent and why they live there. Explore what they eat, how they play, who their friends are and who may be their enemies. Children will be encouraged to bring in books of their favorite animals as they discover Animals Around the World!

### **Art From A to Z**

Through colors, shapes and textures the young minds of students will explore the alphabet! We will create art for every letter of the alphabet.

### **Art Hullabaloo**

This class is for students who want to have fun exploring their imaginations through a variety of art-making techniques, such as drawing, painting, collage making, and printmaking. We'll investigate principals of design and history with fun and expressive projects that emphasize creativity!

### **Basketball Skills and Drills**

Learn from a former college basketball player and current Individual Basketball Coach! This course provides basic instruction of the fundamentals and skills of basketball. No skill level or previous experience required!

### **Be A Sport**

Learn the rules, practice the skills, and play a variety of games and tournaments. Come play your favorite gym games, get some exercise and meet new friends!

### **Board Game Fun**

The purpose of the class is for children to enhance their self-esteem while developing new learning strategies. This will be accomplished via team building activities that will make learning fun. We will be playing board games including but not limited to, Checkers, Yahtzee, Scrabble, Boggle, Connect 4, and Chess.

### **Book Bonanza**

Explore the fun of reading! We will read a variety of books together over the course of the summer and incorporate reading into enrichment activities, such as crafts and games.

### **Camp Wanna Learn S'More**

Earn camp scout badges by completing activities such as fishing for sight words, writing a personal narrative on a postcard, and playing math baseball. Students will participate in camp-themed activities to review grade-level reading, writing, math, and science skills to avoid the summer academic slide.

### **Cartoon Creations**

This fun drawing class will explore the basics of cartoon drawing. Students will learn about comic creation, character design, and penciling. Learn drawing techniques while practicing fun and popular cartoon figures!

### **Chess – Beginners**

Beginning Chess with International Master David Vigorito!

Learn chess with renowned coach and 2016-17 Massachusetts State Champion David Vigorito! David has over a decade of experience teaching elementary school children and has taught in Milton for eight years. Beginners Welcome!

### **Chess – Intermediate**

Intermediate Chess with International Master David Vigorito!

Study chess with renowned coach and 2016-17 Massachusetts State Champion David Vigorito! David has over a decade of experience teaching elementary school children and has taught in Milton for eight years. Students should have at least a general understanding of the rules.

### **Culinary Arts: 2 hour course - \$375.00 (\$350 plus \$25 materials fee)**

In Culinary Arts, not only do students experience new foods and preparation techniques, but they will also learn math, science, history and culture through hands-on experiences while learning about different types of foods! Children will learn so much and develop kitchen confidence, knowing they are developing lifelong skills, while having FUN! Students will accumulate a binder of yummy recipes and any notes that they took during the class to take home with them at the end of MSE. This course is 2 hours in length and the cost of the course is \$275, which includes a \$25 materials fee.

### **Fan Your Science Spark**

Tap into the incredible number of resources that are available for you to pursue a Science topic that interests you! We will build a list of resources that can be bookmarked and utilized throughout the school year!

### **Fitness for Life**

This course will feature different workouts that students can also perform outside of camp, enabling them to keep up with their physical fitness in a manageable way! Through this course, we hope to help incorporate fitness into every student's daily life regardless if they consider themselves an athlete or not!

### **Flag Football**

Prepare for the 2016-2017 NFL season by participating in the Milton Summer Enrichment Flag Football class! In the classic no-contact style of play, kids will enjoy the game of football from both offensive and defensive perspectives while participating in a hassle-free atmosphere. Opportunities to try new positions and strategies are always encouraged, and we will even be keeping track of stats to further engage kids in the course. This is a great way to get some exercise outside and meet some new friends!

### **French is Fun 1 (For French Immersion students)**

This class invites French students entering grades 2 and 3 to participate in a wide range of interactive and engaging activities. The course is built around high interest topics designed to enable students to develop their language skills and use French in meaningful contexts. Songs, storytelling, cartoons, poetry, skits, games and hands-on activities will part be of this summer linguistic experience.

### **French is Fun 2 (For French Immersion students)**

This class, designed for French students entering grades 4, 5 and 6, is built around high-interest themes and interactive activities. Emphasis will be on developing students' oral fluency and acquiring new vocabulary in meaningful contexts. Creative projects, comics, cartoons, songs, poetry, skits, games and hands-on activities will part be of this summer linguistic experience.

### **I SPY**

Be your own detective by solving mysteries, creating and designing your own disguises, develop your own clues, secret codes and fingerprinting techniques 101. We will take our own fingerprints and discover that no two prints are alike! Come join the fun to see if you have what it takes to be a good detective!

### **Hip Hop Dance**

This is a high-energy class! An integration of Jazz and pure hip hop style! A combination of an invigorating warm up, strengthening exercise, dancers will be encouraged to freestyle, using their own creative abilities!

### **How to Read Nonfiction Well**

Students will strengthen their ability to preview tests, utilize standard features, and take notes. They will read a variety of science, social studies, and literary essays and will explore topics of interest!

### **How to Gain Word Power**

With communication getting ever briefer, it's essential that you know just the right word to use to convey your meaning. In this class we will learn techniques for expanding over vocabularies as we continually find relationships among words while having fun!

### **Kickball**

Have fun outside learning and playing a variety of kickball games, from classic kickball to crazy foot games!

### **Mad Scientists**

Curious about the world around you? As Mad Scientists, we'll develop hypotheses, conduct hands-on experiments, and record our findings. Come question and learn about earth and space, animals' needs, sound, and more! We'll also listen to science read-alouds to support our understanding of each topic and build science vocabulary.

### **Marvelous Maps!**

Students will learn about several interesting faraway places of the world while creating and labeling maps, finding out important information about a country's culture, religion, money and the best things to see and do. Fascinating videos and images from some of the most amazing destinations around the world will be shown during class!

### **Math Centers**

This course is designed to introduce and reinforce the number concepts taught in the previous grades. Students will have fun while focusing on patterns, grouping, manipulations, and math games!

### **Math Mania!**

Come join us for fun math center games and activities! Students will be involved in a variety of math centers to reinforce strategies and introduce new ones! Students will work in small groups and rotate groups throughout the hour!

### **Middle Schooler's Guide to Success: in Middle School, High School, and...College!**

This course will help prepare middle school and upcoming middle school students for short term success in both middle school and high school by focusing on the individualized building of executive function skills such as: organization, concentration, working memory, planning, cognitive flexibility, reasoning, problem solving, and self-regulation. In addition, this course will help prepare students for long term success by having students begin to think about college/their future and prepare for the college application process that lies ahead. Through working on these skills and thinking towards the future these middle school and upcoming middle school students will be sure to achieve success in middle school, high school, and... college!

### **Mind Exploding Science**

Have you ever wanted to build your own volcano, play in quick sand, or launch a rocket? Now is your chance! In Mind Exploding Science, we can create mind blowing chemical reactions that happen here on earth!
