% of Seniors taking SAT	95%	90%	94%	96%	91%	100%	100%	95%

~ Changes to the SAT in March of 2005 included the addition of longer reading passages and the elimination of antonyms on the verbal section. Other changes include the addition of open-ended response items and the use of calculators on the math section. The addition of a writing test was introduced at this time, which provided more detailed information about students to the colleges to which they are applying.
