## 2013-14 Diversity Report Milton Public Schools October 15, 2014

This report is in response to School Committee Policy IFC, which is provided at the end of this report.

Two factors drive the issue of diversity within the Milton Public Schools. Among our district's Core Values are "Respect for Human Differences" and "High Academic Achievement for All Students." In addition, the Milton Public Schools Diversity Policy encourages us to "celebrate diversity within our schools and our community." In the following report, we will detail what the Milton Public Schools have accomplished towards these goals during the past year.

## Milton Public Schools Hiring

-The Milton Public Schools are committed to diversity in its hiring practices. We are an equal opportunity employer committed to the provision of quality educational programs for all students. MPS does not discriminate on the basis of race, color, sex, religion, national origin, disability, genetic information, age or sexual orientation. In accordance with School Committee policy, the Milton Public Schools make every effort to hire full time and part time staff, teachers and administrators who reflect, understand and are sensitive to this diversity within our schools.
-The Milton Public Schools make great efforts in the recruitment and hiring process. We advertise in a variety of print publications and employment websites that include racially diverse populations. Administrators attend job fairs and diversity fairs in an effort to seek out and attract potential candidates for the Milton Public Schools.
-We have established contacts at local universities and colleges to identify potential candidates who have completed educational programs that align with expectations of the Milton Public Schools.
-We are developing partnerships with minority recruitment organizations to assist the district in the identification and recruitment of minority staff. This will provide the district with greater access and exposure to minority candidates through on-line job posting, minority candidate resume databases and diversity career fairs.

## Embracing Diversity in Our School Community

The Milton Public Schools seek to challenge all students to thrive and succeed. Our school community embraces the diverse population within our town and our schools. As part of this mission, both the Superintendent of Schools and the Assistant Superintendent for Curriculum and Human Resources meet monthly with the Citizens for a Diverse Milton Leadership Team. At these meetings, the group discusses issues involving diversity in the schools, hiring efforts and issues around raising the achievement of all students attending the Milton Public Schools. The goals of CDM are as follows:

- Students and families of all racial and cultural backgrounds feel welcome, accepted and affirmed throughout the Milton Public Schools.
- Diversity is recognized as an integral component of an excellent education.
- Staff and faculty reflect the racial and cultural composition of the student population town-wide.
-All students are provided with an environment that enables them to work to their fullest potential.
- Students of all racial and cultural backgrounds participate at all academic levels, and those achieving the highest academic success are reflective of the racial and cultural composition of the student population school-wide.
-The curriculum reflects the broad diversity within our local, national and international communities, and teaches respect for human difference and perspectives.

## Diversity in the Schools

Part of our commitment to embrace diversity is to encourage events at each of our six schools. All of our schools have established a Diversity Committee comprised of teachers, administrators, parents/guardians--and at Milton High School--students. These committees aim to enhance knowledge and understanding of cultural differences and similarities among the families in our schools. Please see the following for a sampling of some of the additional initiatives that take place in our schools.

## COLLICOT ELEMENTARY SCHOOL

- One Book, One School: The Jennifer Kelley Project - This Collicot event begins in the fall with a parent/teacher night out to raise funds to purchase a book for each child in the school with a theme of diversity. The teachers work with parents to select the books, which have included themes such as disability awareness, civil rights and ethnic pride. The teachers plan projects with the students in February and March focusing on the book and theme. This is followed by an Adventure Night in March where projects are displayed and families come to engage in additional interactive activities that are planned by teachers and parents.
-Lunar New Year Celebration - This event has included both Collicot and Cunningham parents, staff, and students. A committee of staff and parents work in collaboration with Diversity Committees and PTOs to plan a one-day event where students in both schools rotate through activities in the gym and in classrooms that focus on this Asian family celebration. Arts and crafts are planned for each grade level and each class reads a story connected to their activity that focuses on a particular aspect of the Lunar New Year.
- Francophonie Celebration - This is also a Collicot/Cunningham event focused on the theme of diversity. First grade French students celebrate French speaking countries by completing a family "research project." All rotate through stations in the gym focused on aspects of French culture related to each country represented.
-The Collicot PTO plans cultural enrichment programs and presentations throughout the school year that are linked to the curriculum and promote multi-cultural understanding.

## GLOVER ELEMENTARY SCHOOL

- Students in all grades were invited to view the Harriet Tubman - Historical Perspectives for Children presentation, which was a live, autobiographical presentation of Harriet Tubman, which dealt with the topics of slavery, Civil War, racism and civil rights.
-"Where in the World Did Glover Students Read This Summer?" bulletin boards. Students were sent a postcard asking them to take photos of themselves reading a book. The photos from around the world are displayed in the Glover lobby, showing the diversity of students and their families.
- As part of the Diversity Committee initiative, a large map was installed in the Glover lobby. Each student is asked to pinpoint on the map a country of their heritage and the word "Welcome" is translated into the language of that country.

## TUCKER ELEMENTARY SCHOOL

-Tucker has a Diversity Committee made up of teachers and parents. This group completed several focus groups last year around several school-wide issues and concerns over the year.
-Each year Tucker School holds a Unity night. The students completed choreographed performances in May. It was a wonderful opportunity for students to celebrate their diversity and unity.

- In June we had a Music and Dance Fest that involved local young performances from diverse cultures led by Adrian Williams. Students at Tucker School were engaged in the performance which explored communicating through dance and sign language.
-The PTO brought Li Liu to perform at Tucker School. She shared the history and techniques of Chinese Acrobatics with the school.
-The Site Council led the way in creating the Tucker Reads webpage with features favorite children's stories read aloud by Tucker families, students and children in French, English and Spanish.

## PIERCE MIDDLE SCHOOL

- Pierce Middle School students hosted a very well-attended Global Celebration Talent Show. Students prepared acts and each read a piece about the cultural/ethnic roots of the dance/music, etc.
- Pierce began planning for a young women's club, which will bring successful women in as guest speakers
- A leadership group of students was assembled to assist the principal at Pierce Middle School with activities to celebrate Black History Month.
-The celebration of diversity is infused throughout the Pierce Middle School curriculum. For example, via art class, students explore and compare a number of cultures. In $7^{\text {th }}$ grade, they examine the art of Northern Africa and the Middle East to compare the cultural use of the Khamsa symbol. In addition, students keep a "passport" to document their cultural travels via art.

## MILTON HIGH SCHOOL

-Members of the Diversity Committee have assisted in organizing, have attended, and participated in the $7^{\text {th }}$ Annual Boys to Men Retreat. Milton High School collaborated with Brookline High to provide a day of intense support to students of color. Young men from Milton High School attended the all day retreat which featured a panel of guest speakers, a relationship workshop, dressing for success activities (conducted by the CEO of Milton's Department store), and other highly engaging activities. A similar opportunity for the Young Women's Group is being explored for the 2014-15 school year.
-We surveyed and collected data from students at the high school related to their views of the community at Milton High School. Upcoming surveys will relate to success and group identity at the high school. The surveys are to explore a link between school culture and academic success, according to student perception.
-A first International Fest was held in May 2014 with performances from six countries, country display tables of art \& crafts from more than fifteen countries, and delicious ethnic foods provided by eight local restaurants. Staff, families, and their students from the district came together to make this event a community success to gain a higher level of appreciation for the diversity in Milton.

## MILTON HIGH SCHOOL

(Continued)
-The Diversity Committee worked closely with the MHS administration to create a safe, inclusive gender neutral restroom on the ground floor of the building - open to all MHS students, staff and visitors.
-The committee began to lay the groundwork to establish a Parent Mentor Network. This family to family network is for new incoming families who come from diverse backgrounds to be connected to families who have lived in the district long enough to help guide the new families become integrated more effectively. The district's new Family Outreach Liaison will be approached to assist with this endeavor.

## Staffing Data

Non-White Teaching Staff by School

Staffing Data by Gender (Male)

## Student Enrollment Data

An enrollment analysis of the 2013-14 district demographics, along with previous years and the most recent enrollment data show the following:

Non-white Enrollment by School

## 2013-14 District Enrollment by Race/Ethnicity

First Language Not English by School/District

Low Income by School/District

Free Lunch by School/District

Male Enrollment by School/District

## Special Education by School/District (Students With Disabilities)

*note: State percentages have not changed in 5 years. Also note, new category title.

Assessment

## Elementary MCAS Data 2013-14

## Low Income Subgroup (Grade 3)

| ELA |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2010 | 2011 | 2012 | 2013 | 2014 |
| CPI Non Low Income | 92.1 | 93.3 | 91.2 | 92.5 | 90.2 |
| CPI Low Income | 80.7 | 75 | 72.6 | 77.3 | 69.6 |
| Difference | 11.4 | 18.3 | 18.6 | 15.2 | 20.6 |

Math

|  | 2010 | 2011 | 2012 | 2013 | 2014 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| CPI Non Low <br> Income | 91.9 | 96 | 92.4 | 95.8 | 96.2 |
| CPI Low Income | 72.3 | 73.9 | 73.8 | 78.9 | 70.3 |
| Difference | 19.6 | 22.1 | 18.6 | 16.9 | 25.9 |

Have gaps in performance between student groups decreased over time? No

Have all groups of students gained over time? No

What is the magnitude of the gap between groups?
Notable- the gap is larger in mathematics.

## African American/Black Subgroup (Grade 3)

ELA

|  | 2010 | 2011 | 2012 | 2013 | 2014 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| CPI White | 92.8 | 94.1 | 92 | 92.7 | 91.2 |
| CPI African <br> Am./Black | 80.8 | 74.4 | 78.1 | 74.2 | 70.2 |
| Difference | 12 | 19.7 | 13.9 | 18.5 | 21 |

Math

|  | 2010 | 2011 | 2012 | 2013 | 2014 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| CPI White | 93.9 | 95.5 | 93.1 | 95.3 | 96.8 |
| CPI African <br> Am./Black | 68.1 | 76.1 | 79.7 | 80 | 75 |
| Difference | 25.8 | 19.4 | 13.4 | 15.3 | 21.8 |

Have gaps in performance between student groups decreased over time?
ELA- No Math- No ELA

Have all groups of students gained over time?
No
What is the magnitude of the gap between groups?
Notable in Math and ELA

## Special Education Subgroup (Grade 3)

|  | 2010 | 2011 | 2012 | 2013 | 2014 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| CPI Non Spec <br> Education | 93.4 | 93 | 91.7 | 93.4 | 93.4 |
| CPI Spec <br> Education | 80.7 | 79.2 | 76.2 | 72.3 | 63.5 |
| Difference | 12.7 | 13.8 | 15.5 | 21.1 | 30.1 |

Have gaps in performance between student groups decreased over time?
No

Have all groups of students gained over time?
No

What is the magnitude of the gap between groups?
Notable in both ELA and Math

## Low Income Subgroup (Grade 4)

| ELA |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  | 2010 | 2011 | 2012 | 2013 | 2014 |
| CPI Non Low <br> Income | 90.4 | 92.9 | 94.4 | 91.2 | 88.9 |
| CPI Low Income | 70.7 | 75.6 | 72.1 | 67.6 | 67.5 |
| Difference | 19.7 | 17.3 | 22.3 | 23.6 | 21.4 |

Math

|  | 2010 | 2011 | 2012 | 2013 | 2014 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| CPI Non Low <br> Income | 88 | 92 | 94.5 | 90.7 | 92.7 |
| CPI Low Income | 68.1 | 75 | 75 | 69.6 | 73.1 |
| Difference | 19.9 | 17 | 19.5 | 21.1 | 19.6 |

Have gaps in performance between student groups decreased over time? Yes, in Math and ELA

Have all groups of students gained over time? Yes in Math, ELA remained flat

What is the magnitude of the gap between groups?
Notable

## African American/Black Subgroup (Grade 4)

| ELA |
| :--- |
|  |
|  |
| CPI White |
| 91.8 |

Math

|  | 2010 | 2011 | 2012 | 2013 | 2014 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| CPI White | 87.9 | 93.9 | 94.9 | 92.1 | 92.6 |
| CPI African <br> Am./Black | 70.2 | 71.4 | 75.6 | 73.5 | 75.8 |
| Difference | 17.7 | 22.5 | 19.3 | 18.6 | 16.8 |

Have gaps in performance between student groups decreased over time? Yes- in Math, no in ELA

Have all groups of students gained over time? Yes in Math, no in ELA

What is the magnitude of the gap between groups?
Notable.

## Special Education Subgroup (Grade 4)

## ELA

|  | 2010 | 2011 | 2012 | 2013 | 2014 |
| :--- | :--- | :--- | :--- | :--- | :--- |

## Percent of Qualifying Test Scores Out of Number of Tests Taken

## Diversity of

## AP Test Takers vs. $11^{\text {th }}-12^{\text {th }}$ Grade Student Body

## Honors Course Data

ex. There were 317 white students in grades 11 and 12 during the 2012-2013 school year.
In grades 11 and 12, 65 white students took honors level math courses.
Therefore 65/317 = 22\% of the white population in grades 11 and 12.

Honors Level Courses Grade 11\&12 (2013-14)

Based on data analysis, the Administration and School Committee made recommendations for continued Advancement Initiatives that focus on the following district goals:

- Improve Early Literacy
- Close the Proficiency Gap
- Improve Science Achievement for All Students

The Year 2 Advancement Initiatives were approved by the School Committee in the Spring of 2014.

## School Committee Policy IFC

- Diversity Policy

The Milton Public Schools reflect and nurture as one of its five core values a respect for human differences, including race, cultural or linguistic background, religion, gender, socioeconomic status, learning skills, physical disabilities, diversity of viewpoint and so on. We seek to build upon those differences as potential strengths for the individual, and for our community. Our schools welcome and respect the ideas, culture and heritage of Milton's residents and of our staff, teachers and students.

The Milton Public Schools recognize that learning thrives in an atmosphere of open debate and a thoughtful exchange of views. We celebrate the diversity within our schools and our community. We believe that our students benefit significantly from contact with teachers and other educators who can serve as diverse role models and thereby further contribute to our students' educational success.

Accordingly, the Milton School Committee reaffirms the policy of the Milton Public Schools to strengthen recognition of the importance of diversity in the Milton Public Schools (i) by recognizing the importance of diversity, and acknowledging that it is an evolving and complex notion (ii) by promoting a shared, thoughtful and sensitive understanding of diversity priorities among our administrative staff, teachers, students, parents and community; (iii) by seeking to link our diversity objectives to our organizational and educational structure, training and curriculum; (iv) by fostering a shared responsibility for constructive communication concerning diversity within the schools and our community and recognizing that change must often be achieved on multiple levels; (v) by acknowledging that our students (and our school system as a whole) will benefit greatly from contact with teachers and others who will serve as diverse role models; (vi) by confirming that affording our students the widest possible interaction with staff of diverse backgrounds will immeasurably contribute to the success of our educational programs and (vii) by expressing our intent to strive for the development of a staff which not only reflects the demographic composition of our school population but also reflects our community at large.

## School Committee Policy IFC (continued)

The Committee believes that the creation of a constructive dialogue with respect to diversity and education is an important goal, and should assist in identifying challenges in a manner which avoids conflict and encourages mutual understanding.

In implementing this policy, the Committee recognizes that Massachusetts and federal statues and regulations prohibit school districts from discriminatory practices in employment or educational opportunity against any person by reason of race, color, national origin, religion, ancestry, age, sex, affectational or sexual orientation, disability or marital status. As stated elsewhere in its policies, this Committee is committed to equal opportunity for all in its hiring policies and intends to continue to broaden and deepen its commitment to racial, ethnic and other forms of diversity by actively promoting the hiring of candidates of color. Accordingly, the administration of the Milton Public Schools will continue to make every reasonable effort to hire part-time and full-time staff and teachers who reflect, understand, and are sensitive to this diversity within our schools.

Further, the administration will develop a formal plan to be implemented in all of our schools and within the central administration which has a principal goal of ensuring that our system is a community that celebrates the first of its diversity. The superintendent will report to the Committee on an annual basis not later than October $15^{\text {th }}$ each year to provide an update on the system's hiring efforts, and the continuing development and implementation of this plan.

Adopted: (November) 2001
