

MARY JILL MARKARIAN

Ms. Markarian graduated from Framingham State College with a BS in Biology and a concentration in middle school education. Prior to coming to Milton, Ms. Markarian taught in the Brockton Public Schools and the Walpole Public Schools.

In May of 2004, Ms. Markarian applied for the Middle School Science teacher position and began her stellar career at the Pierce Middle School.

Dr. Karen Spaulding said that what strikes her about Jill Markarian is that “she has always been so committed to her own professional development. She truly loves to do and learn science. Not only did she bring that new learning to the classroom, but was a powerful model for students- that learning never stops. She has touched the lives of many students and her contributions to the Pierce Science Curriculum will continue to positively impact many students. “

Ms. Markarian, we wish you continued happiness as you begin your retirement!
