

Application Process for MPS Quality Review through an Equity Lens Steering Committee

Open to ALL Stakeholders!

The district has partnered with Cambridge Education, community partners, parents/guardians, educators, and students to develop an equitable process to recruit, select, and onboard committee members.

The MPS Quality Review Steering Committee is a volunteer, community-based WORKING committee whose purpose is to support the MPS process to work purposefully towards living our mission in the aspiration of achieving our vision. The Steering Committee will work to ensure that the process meaningfully involves diverse stakeholders and the MPS strategic plan reflects community values, mission, and priorities.

Steering Committee members should be community-minded, represent the diversity of the community we are serving, and bring a variety of knowledge, approaches, skills and life experiences to the process. Please see the [Steering Committee selection criteria](#) for more information. Applicants will be considered based on the information provided with this application, interview, and the need to balance a diversity of perspectives.

The objectives of the committee are:

- Analyze equity audit results
- Identify root causes of equity challenges that are within the district’s sphere of influence
- Identify goals and objectives for equity planning that lead to increased equity at all levels of the organization
- Focus on five key areas – Awareness, Staff Development (buy in, implementation, and accountability, and composition), Voice, Student Supports, and Analysis – to drive excellent and equitable outcomes for all students.

Questions about the application and selection process should be directed to Somaly Prak-Martins at sprak-martins@miltonps.org
