

## **JEANNE SGROI**

Jeanne Sgroi began her career in the MPS in 2003 as a nurse substitute before Collicot was fortunate enough to have her become the full time nurse.

Collicot Principal Holly Concannon stated that Jeanne is the unsung hero of the Collicot School. She knows every child by name and has formed exceptional relationships with students and families.

Jeanne has a gift of deciphering between illness and a need for comfort. She is able to address both with professional care and a nurturing way. Jeanne has consoled students and families alike.

This year Jeanne has exceeded expectations for our school nurse. She has been a tremendous resource to staff and families as we battled through the most challenging year for any school system. Jeanne willingly gave up a summer, weekends, and nights to make sure that all felt safe and protected.

MPS Director of Nursing Kim Coughlin stated that it has been a pleasure to work on a daily basis with such an outstanding nursing professional. Jeanne has been a part of the MPS community as a school nurse at Collicot for fifteen years providing a caring environment and compassionate care for all students and staff. She has done an outstanding job this year navigating the challenges this pandemic has put on school health services which was no easy task!

The Milton school district has been extremely lucky to have Mrs. Sgroi as a core member of our health services team and we wish her the best in her retirement.
