

DR. LOUISE THOMSON

Dr. Thomson graduated from Lesley College with a Bachelors of Science in Education

She received her Master's Degree from Boston University and later received her doctorate.

In 1998, she was hired to work in the Milton High School Special Education Resource Room. Throughout her career, Dr. Thomson has been instrumental to the success of so many students.

Recently a parent wrote that Dr. Thomson's class was a real "game changer" for her child. By helping him organize his thoughts, break down content, and understand reading material, her child was able to develop strategies that he will continue to use in the future.

According to Principal James Jette, "Louise has been a dedicated and passionate faculty member for MHS and we truly appreciate her many years of service".

Dr. Thomson, thank you for all the guidance and support you have given to Milton High School students. We wish you years of health and happiness as you begin this new chapter of your life.
