School Committee

Wait Until 8th

- Pledge that empowers families to rally together to delay giving children a smartphone until at least 8th grade.
- By banding together this will decrease the pressure felt by students and families alike over the students having a smartphone.
- A pledge becomes "active" once 10 or more families from a **grade** at a school sign.
- This takes the pressure off because the pledge only kicks in once at least 10 families sign from your grade.

Statistics

- The average age a student gets a smartphone is 10 years old
- Children are spending between 6 and 9 hours a day on media
- 95% of teens have smartphones *
- 45% of teens say they are online “almost constantly” *
- 24% report social media has had a negative effect on their life *

* Pew Research Company

Smartphone Only!

- If you would like your student to have a basic phone that just calls and texts, you still can sign the pledge!

- The basic phone avoids many of the distractions and dangers of the smartphone.

How it Works

- Go to <https://www.waituntil8th.org/>
- Pledge
- 10 families take the pledge = Active
- Receive an email stating it is active along with list of all pledgers
