

Then on Monday, March 11th, the Milton Public Schools will hold a **STEM Information Night**. Kindergarten students and their parents are welcome to attend. During STEM Information Night, attendees will be given an overview of the STEM Program in the English Innovation Pathway and participate in a hands-on engineering activity. STEM Information Night will take place in the Cunningham/Collicot cafeteria and will run from 6:30-7:30 PM. You may enter through the back doors of the building beginning at 6:30 PM. Due to limited space during this event, we ask that you make efforts to leave siblings of current kindergarteners at home. We hope to see you there! Please [contact Elementary Science Coordinator Ellen Lohan](#) with any questions.
