Re: Asbestos Management Plan

Milton Public Schools' Asbestos Management Plan is on file and is located in the Central Administration office. There is a Three Year Reinspection Plan in the main office at each school available for your review. The current plan identifies any asbestos that still remains in our school buildings after the construction project was completed. The plan also addresses and identifies the condition of the asbestos and how it is professionally managed.

Please contact me at 617-898-4930 or by e-mail at britchie@townofmilton.org to request further information.

Thank you.

Sincerely,

William F. Ritchie CPE, CFA
Consolidated Facilities Director
