

ALISON JOYCE

After being a substitute at all levels (elementary, high and middle) in the Milton Public Schools and other surrounding towns, Alison began her career in Milton in 2001 as the school nurse at Milton High School.

She later transferred to Cunningham Elementary where she has remained and enjoyed quite a remarkable career.

According to Director of Nursing Kim Coughlin, Mrs. Joyce is an outstanding school nurse with impressive knowledge of the school aged student. She is often complimented on the calm, safe and healthy environment provided to students and staff in the nurse's office.

As a valued member of our health services team, especially in this incredibly challenging year, Mrs. Joyce has been an excellent resource to the Cunningham community. We wish her the best in her retirement.

Cunningham Principal Dr. Jonathan Redden stated that Ms. Joyce has truly been an asset to Cunningham.

Particularly this year, Ms. Joyce has gone above and beyond. She has sacrificed evenings, vacations, and many weekends keeping up with changing protocols to continuously support the health of students and staff. Her efforts have absolutely helped to prevent the spread of many sicknesses in our school.

We all want to thank Mrs. Joyce for her exception work at Cunningham Elementary School and wish her nothing but health and happiness in this new chapter in her life.
