

MILTON PUBLIC SCHOOLS

BULLYING PREVENTION

The Milton Public Schools strive to provide a safe, respectful, and supportive learning environment in which all students can thrive and succeed in its schools. It is the goal of the Milton School Committee and the Milton Public Schools to promote a learning atmosphere for students free from all forms of bullying and ensure that all students have equal rights of access and equal enjoyment of the opportunities, advantages, privileges, and courses of study. Because bullying affects not only students who are targets but also those who participate and witness such behavior, it is detrimental to student learning and achievement and will not be tolerated by the Milton Public Schools.

The Milton Public Schools prohibits all forms of harassment, discrimination and hate crimes based on race, color, religion, national origin, ethnicity, sex, sexual orientation, gender, gender identity or expression, gender variance, gender conformity, gender transitioning, transgender status, age, homelessness or disability. The civil rights of all school community members are guaranteed by law. We are committed to providing an inclusive and welcoming environment for all members of our staff, students, volunteers, subcontractors, and vendors. The protection of those rights is of utmost importance and priority to our school district. Further, the Milton Public Schools will also not tolerate Retaliation (as defined below) against persons who take action consistent with this policy.

“Bullying” is the repeated use by one or more students or school staff members of a written, verbal, or electronic expression, or a physical act or gesture, or any combination thereof, directed at a target that:

- causes physical or emotional harm to the target or damage to the target’s property;
- places the target in reasonable fear of harm to him/herself, or of damage to his/her property;
- creates a hostile environment at school for the target;
- infringes on the rights of the target at school; or
- materially and substantially disrupts the education process or the orderly operation of a school.

“Cyber-bullying” means bullying through the use of technology or any electronic communication, which shall include, but shall not be limited to, any transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a:

- wire
- radio
- electromagnetic
- photo-electronic or photo-optical system, including, but not limited to, electronic

mail, internet communications, instant messages or facsimile communications.

Cyber-bullying shall also include the creation of a web page or blog in which the creator assumes the identity of another person or knowingly impersonates another person as author of posted content or messages, if the creation or impersonation creates any of the conditions enumerated in the definition of bullying.

Cyber-bullying shall also include the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in the definition of bullying.

Bullying and cyber-bullying may occur in and out of school, during and after school hours, at home and in locations outside of the home. When bullying and cyber-bullying are alleged, the full cooperation and assistance of parents and families are expected.

For the purpose of this policy, whenever the term bullying is used it is to denote both bullying and cyber-bullying.

Bullying is prohibited:

- On school grounds;
- On property immediately adjacent to school grounds;
- At school-sponsored or school-related activities;
- At functions or programs whether on or off school grounds
- At school bus stops;
- On school buses or other vehicles owned, leased or used by the school district; or;
- Through the use of technology or an electronic device owned, leased or used by the District;

Bullying and cyber-bullying are prohibited at a location, activity, function or program that is not school-related or through the use of technology or an electronic device that is not owned, leased or used by the District if the act or acts in question:

- create a hostile environment at school for the target;
- infringe on the rights of the target at school; and/or
- materially and substantially disrupt the education process or the orderly operation of a school.

Prevention and Intervention Plan

The Superintendent and/or his/her designee shall develop, adhere to, and update a plan to address bullying prevention and intervention, in consultation with all district stakeholders, which may include teachers, school staff, professional support personnel, school volunteers, administrators, community representatives, local law enforcement agencies, students, parents and guardians,

consistent with the requirements of this policy, as well as state and federal laws. The plan shall apply to students and members of school staff, including but not limited to, educators, administrators, school nurses, cafeteria workers, custodians, bus drivers, coaches, advisors, and paraprofessionals. The bullying prevention and intervention plan shall be reviewed and updated at least biennially.

The Principal is responsible for the implementation and oversight of the bullying prevention and implementation plan within his or her school.

The bullying intervention plan will recognize that certain students may be more vulnerable to become a target of bullying and harassment based on actual or perceived differentiating characteristics, including “race, color, religion, ancestry, national origin, sex, socioeconomic status, homelessness, academic status, gender identity or expression, physical appearance, pregnant or parenting status, sexual orientation, mental, physical, developmental or sensory disability or by association with a person who has or is perceived to have 1 or more of these characteristics.” The District’s bullying intervention plan will include the specific steps that each school will take to support these vulnerable students and to provide all students with the skills, knowledge and strategies needed to prevent or respond to bullying or harassment.

Reporting

Students, who believe that they are a target of bullying, observe an act of bullying, or who have reasonable grounds to believe that these behaviors are taking place, are obligated to report incidents to a member of the school staff. The target shall, however, not be subject to discipline for failing to report bullying.

Each school shall have a means for anonymous reporting by students of incidents of bullying. No formal disciplinary action shall be taken solely on the basis of an anonymous report.

Any student who knowingly makes a false accusation of bullying shall be subject to disciplinary action.

Parents or guardians, or members of the community, are encouraged to report an incident of bullying as soon as possible.

A member of a school staff shall immediately report any instance of bullying the staff member has witnessed or become aware of to the school principal or their designee.

On an annual basis, the District will report bullying incident data to the Department of Elementary and Secondary Education (DESE).

Investigation Procedures

The Principal or their designee, upon receipt of a viable report, shall promptly contact the parents or guardians of a student who has been the alleged target or alleged perpetrator of bullying. The actions being taken to prevent further acts of bullying shall be discussed.

The school principal or a designee shall promptly investigate the report of bullying, using a Bullying/Cyber-bullying Report Form which may include interviewing the alleged target, alleged perpetrator, staff members, students and/or witnesses.

Support staff shall assess an alleged target's needs for protection and create and implement a safety plan that shall restore a sense of safety for that student.

Confidentiality shall be used to protect a person who reports bullying, provides information during an investigation of bullying, or is witness to or has reliable information about an act of bullying.

If the school Principal or a designee determines that bullying has occurred he/she shall take appropriate disciplinary action and if it is believed that criminal charges may be pursued against the perpetrator, the principal shall consult with the school's resource officer and the Superintendent to determine if criminal charges are warranted. If it is determined that criminal charges are warranted, the local law enforcement agency shall be notified.

The investigation shall be completed within fourteen school days from the date of the report. The parents or guardians shall be contacted upon completion of the investigation and informed of the results, including whether the allegations were found to be factual, whether a violation of this policy was found, and whether disciplinary action has or shall be taken. At a minimum the Principal or his/her designee shall contact the parents or guardians as to the status of the investigation on a weekly basis.

When a determination is made that bullying has occurred, the school Principal will inform the parents/guardians of the victim about DESE's problem resolution system (administered through PQA) and the process for seeking assistance or filing a claim.

Disciplinary actions for students who have committed an act of bullying or Retaliation (as defined below) shall be in accordance with district disciplinary policies.

Each school shall document any incident of bullying that is reported per this policy and a file shall be maintained by the Principal or designee. A monthly report shall be provided to the Superintendent.

Confidentiality shall be maintained to the extent consistent with the school's obligations under law.

Retaliation

Retaliation is defined as any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying. Retaliation shall be prohibited.

Target Assistance

The District shall provide counseling or referral to appropriate services, including guidance, academic intervention, and protection to students, both targets and perpetrators, affected by bullying, as necessary.

Training and Assessment

Annual training shall be provided for school employees and volunteers who have significant contact with students in preventing, identifying, responding to, and reporting incidents of bullying.

Age-appropriate, evidence-based instruction on bullying prevention shall be incorporated into the curriculum for all students.

The District's plan will include provisions for informing parents/guardians about the bullying prevention curriculum as well as ways that parents/guardians can reinforce the curriculum at home. Parents/guardians will also be informed about the dynamics of bullying and online safety and cyber-bullying.

Publication and Notice

Annual written notice of the relevant sections of the bullying prevention and intervention plan shall be provided to students and their parents or guardians.

Annual written notice of the bullying prevention and intervention plan shall be provided to all school staff. The faculty and staff at each school shall be trained annually on the bullying prevention and intervention plan applicable to the school.

Relevant sections of the bullying prevention and intervention plan relating to the duties of faculty and staff shall be included in the school employee handbook.

The bullying prevention and intervention plan shall be posted on the District website.
