

The Milton Public Schools District Strategic Plan and Process

Background on the Process

The Milton Public Schools Strategic Planning Advisory Committee set three goals for their work:

- Create an expedited strategic planning roadmap and process
- Develop a set of actionable strategic initiatives
- Initiate a nimble process that includes all stakeholders

The Milton Public Schools Strategic Planning Advisory Committee has both crafted a Strategic Plan for the Milton Public Schools and defined and refined a strategic planning process. This work has taken place over a period of three years. As might be expected, this process has evolved over time.

2015-16

In the 2015-16 school year, the group, consisting of members of the MPS School Committee, the Superintendent's Office, principals, and members of the community with expertise in this area, sought out strategic planning consulting firms to support the strategic planning process for the district. However, a desire to move forward with the work and recognition that much in-house expertise existed led to the decision to instead target available funding toward hiring educational consultants with expertise in particular areas of need. The group progressed forward being sensitive to the rhythms of the school year and with a commitment to finding the right balance between involvement and momentum.

In summer 2016, the Strategic Planning Sub-committee identified three key agenda items:

1. School System Description/Data Initiatives
 - to capture the setting and context of the district, including key metrics. In addition, they addressed the question-
How are data being used to assist School Committee and the Superintendent?
2. Core Beliefs & Goals and 3 Current Initiatives
 - to assess and propose revisions for the district vision statement and capture work being done in the areas of cultural competence, social emotional learning, and inclusion
3. Environment & Technology
 - to paint a picture of the environmental pressures that influence our work such as policies and regulations, resources, and the community. In addition, they reflected on technology use in the district as well as trends in technology and how it can influence the design of teaching and learning practices.

2016-17

In fall 2016, three teams of Milton Public School educators and community members were recruited to serve on one of the three key agenda item groups and gathered in November 2016 to kick off the process. These three teams met regularly through December 2016 to address key questions related to each of the three key agenda items and produce a final report. The next step in the process was to recruit external experts to review the findings of the three teams. However, difficulty in identifying those experts and competing district priorities paused the process.

2017-18

In fall 2017, the valuable information gathered by each of the teams described above led to the conclusion that the next step in this process should be first, author a new vision statement for the Milton Public Schools and second, delineate the key initiatives related to areas identified as priorities by the district:

- Curriculum and Instruction
- Technology
- Data Use
- Cultural Competency
- Social Emotional Learning

A survey and feedback process in October 2017 that included all stakeholders led to School Committee approval of a new vision statement for the Milton Public Schools in November 2017. In winter and spring 2017-18, district members of the Strategic Planning Advisory Committee worked as liaisons with existing task forces to articulate current goals, objectives and action plans for each of the five priority areas listed above. The results of that work were then incorporated into a strategic planning template and vetted through those committees and working groups for feedback.

At the May 2, 2018, the Strategic Plan will be presented to the School Committee for its first reading. Notice will be sent out to all MPS Staff and MPS Families to alert and encourage them to view the presentation on MATV on the evening of May 2nd or at the Milton Access TV website beginning on the morning of May 4th. A survey will be made available to all staff and families to share their feedback at that time, with a due date of May 9th. The feedback will be reviewed, and incorporated into the plan as needed, by the Strategic Planning Advisory Committee. The Strategic Plan will be brought back to the School Committee for a vote on the Plan's Goals and Objectives at its June 6th meeting.

Description of the District

The Milton Public Schools serves just over 4,000 students in four elementary schools- ***Collicot Elementary School, Cunningham Elementary School, Glover Elementary School***, and the ***Tucker Elementary School***- the ***Pierce Middle School***; and one high school- ***Milton High School***.

The Milton Public Schools offers two unique programs to students beginning in Grade 1.

- The *English Innovation Pathway* engages students in solving real world problems using Lego Engineering Curriculum developed at Tufts University and Project Lead the Way. As students in this program make their way through the elementary grades, they gain critical engineering knowledge, skills, and habits of mind. Students who choose the English Innovation Pathway take Spanish at the elementary level and then choose Latin or Spanish at the middle school.
- The *French Immersion Program* begins with full French immersion in Grade 1. All subjects except specials are taught in French 100% of the time in Grades 1 and 2, 50% of the curriculum is taught in French in Grades 3 and 4, and 30% of the curriculum is taught in French in Grade 5. French language instruction continues through middle school and into high school, as do other world languages.

The Milton Public Schools also prides itself on strong performing and visual arts programming, competitive athletic teams, and rich extracurricular experiences. Our students have been recognized at the local, state, and national levels in a number of areas. Finally, the Milton Public Schools is dedicated to supporting overall wellness and the social, emotional, and positive behavioral health of our students and does so through skills based instruction, supportive networks for students, and partnerships with families and outside organizations.

The Milton Public Schools District Strategic Plan

Vision Statement	We, the Milton Public Schools, envision a district with excellent instruction in every classroom, where learning experiences are aligned with students' individual strengths and needs, and where attention to academic and social emotional growth are balanced so that every child achieves at high levels and develops a strong sense of self. We see a district of intellectual discourse and professional learning at all levels- students, faculty, and administration- in which there are structures and processes for continual reflection, innovation, and data driven decision-making. We know that such a district is achievable if: we facilitate instruction that instills a passion for learning, curiosity, and critical thinking skills; we are committed to cultural competency; we foster a positive approach to
