All Pierce Middle School students will be taking the *i-Ready Math Diagnostic* in their math classes in June just as they did in the winter. Students should check with their math teacher for specific dates and remember to bring headphones with them to school. The data from the assessment will be helpful in determining students' strengths and gaps in understanding next year, so it is important that students try their best and not rush through the questions on the assessment. It is just as important though that students not spend too much time on or get discouraged by questions they don't know how to answer. That is to be expected with adaptive assessments like *i-Ready*.
